

Installing console kit on Gr7

Step 1.

Please insert the battery into the sender.

Step 2.

Attach the double Velcro mounts to the sender and plug in sensor board.

Step 3.

Remove the 4 screws holding the cover. Two on one side, and two more on the other side.

Step 4.

Plug in the speed sensor cable into the sensor board.

Step 5.

Mount the sender on to the frame, under the seat.

Step 6.

Re-install the cover.

Step 7.

Install the batteries into the console.

Step 8.

You can mount the console wherever you prefer, but we recommend you remove the phone mount and replace it with the console.

There will be parts left over as this kit is for multiple models. Eg: The magnet is for Gr6 & Gr3
