x6

Wall mounts

x36

Brick anchors

x36

Screw units

x36

Drywall anchors

Reactive Intelligence Wall™ setup

Distances indicated below are measured from the top hole of each Wall Mount

Wall Mount setup

Step 01

Attach the Wall Mounts to the wall

Step 02

Place the PodBases in the Wall Mounts

Step 03

Place the Pods in the PodBases

Technical highlights

- 1 The Wall Mounts should be positioned in a Y shape with the BlazePod® logo upright.
- 2 Precise measurements are taken from the top hole of each Wall Mount.
- 3 There are two types of anchors provided for different walls.

We highly recommend having a professional install your Reactive Intelligence Wall™ for maximum safety & precision.
