

## Steelflex Leg Extension (PLLE-BR)

The Steelflex Plate Loaded Leg Extension machine is constructed of a rugged 11-gauge oval steel tube that provides excellent strength with a modern design. The frame is protected with a high quality powder coating that resists scratches, wear and sweat. This leg extension machine is suitable for use in home to commercial environments such as weight rooms in high schools, college fitness facilities, training studios, military and commercial gyms and more.

**CHF 1'290.00**

### Features

- Isolateral (independent, unilateral or bilateral) leg movement for balanced muscle development and advanced biomechanics
