

Concept2 tarpaulin

The Concept2 cover is made of a water-repellent polyester/vinyl and protects the rower from dust and dirt. However, it does not provide comprehensive and waterproof protection against weather or heat for a rower that is stored outside. The cover is weatherproof and easy to clean.

CHF 89.00

The Concept2 Cover is designed exclusively for use with the RowErg (Standard and High Leg) and the Indoor Rower Model A, B, C or D. The cover is not compatible with the Model E or Dynamic Rower.

- Protects from rain water
- compatible with model RowErg Standard and model RowErg Tall
- approx. 280g
