

Tuffstuff Lat/Rudder Pull to Half Cage with Smith Machine (CHL-610WS)

The perfect complement to the CSM-600 Half Cage with Smith machine, the CHL-610WS Dual Adjustable Pulley System allows you to perform a variety of different exercises. The pulley system includes a dual cable lat station and a fixed rowing station designed for both single and double arm movements. The 90kg weight stack provides the optimal resistance for cable training. The CHL-610W simply bolts to the main frame structure.
