

Steelflex Triceps Extension (PLTE-BR)

The Steelflex Plate Loaded Triceps Extension is made of a sturdy 11-gauge oval steel tube that provides excellent strength with a modern design. The frame is protected with a high quality powder coating that resists scratches, wear and sweat. This triceps extension is suitable for use in home to commercial environments such as weight rooms in high schools, college fitness facilities, training studios, military and commercial fitness centers and more.
