

TRX Extender

This handy nylon strap allows the TRX® Suspension Trainer to be attached to any attachment point.

CHF 19.90

The TRX Extender allows the TRX® Suspension Trainer to be safely attached to high (3.8 meters or more), extensive, vertical and smooth anchorage points such as trees, ceilings, basketball hoops or poles/posts/masts.

- 3.8cm wide industrial nylon processed to the highest standards
- length 98cm
- compatible with all TRX® anchoring solutions including the TRX® Xmount (sold separately).
- If longer lengths are required, two or more extenders can be connected together

Compatible with all TRX anchoring solutions including TRX X-Mount (sold separately). If you need longer lengths, you can connect two or more extenders. Please follow the instructions included with the TRX Extender.
