The special feature of the gloves is the patented fin system for effortless removal without tearing it, which is often the case with training gloves that do not have the patented Schiek system.

The Schiek training gloves prevent injuries and have a special gel padding in the palm and thumb area, as well as a non-slip palm area.

The 3/4 finger gloves are made of synthetic Amara leather, are washable and particularly carefully processed so that you can train safely. Made in the USA.

The gloves are even worn by the US Marines and are not only to be used for sports, but also suitable and recommended for everyday use.
