

## Schiek Deluxe Tension Strap with Metal Dowel 1000DLS

The Schiek Sports 1000DLS model features a soft neoprene wrist guard combined with special locking pin technology to minimize wrist stress when lifting heavy weights.

**CHF 55.90**

This special metal pin at the end of the traction aid serves as a wedge between the hand and the weight bar. This unique invention offers you an alternative to the somewhat longer traction aids and has the advantage that you can quickly release it at any time without the traction aids getting jammed, which can occasionally happen with simple traction aids when tightening.

- 15 cm long traction sling with integrated metal dowel for easier handling.
- The ankle is clamped between the hand and the dumbbell bar.
- Triple stitched (handmade).
- Ideal for strength athletes who do not like to train with long bands.
- Optimal for a quick workout
- Ingenious simplicity of use
- Designed for weightlifters and strength athletes.
- Made in the USA
- Price per pair
