

## Sponser Pro Recovery All in one 800g can

44/44 PRO Recovery is a naturally sweetened protein supplement with All -in- One character. High-quality protein components combined with long-chain starch hydrolisates support the recovery phase (muscles and glycogen stores) after hard endurance or power workouts.

CHF 53.00

44% Protein 44% Carbo + Colostrum + Amino Acids - the combination of CFM Whey Protein, rapidly available potato, egg hydrolisates and micellar casein provides a fast, as well as slow amino acid influx into blood and therefore promotes protein synthesis (muscle building), respectively inhibits muscle breakdown. The carbohydrates in the form of barley and rice starch hydrolisate regenerate glycogen stores and provide insulin secretion and inhibit performance-related muscle breakdown (muscle catabolism).

44/44 PRO Recovery is also especially suitable for young athletes in games and team sports, who in addition to muscle building also strive for a targeted mass build-up.

Enriched with colostrum, the first milk of cows, rich in immune - and growth factors for the development phase.

### Advantages:

- High-quality fast- and slow-available protein sources.
- Low lactose
- Without artificial sweeteners
- Practical water preparation

### Application:

Suitable for ambitious athletes who want to increase their muscle mass and support the regeneration with high-quality proteins. Preferably before and after exercise 1 shake each.

### Ingredients:

protein powder 44% (protein isolates from cross flow filtration [whey, milk], micellar casein, bovine colostrum, protein hydrolisates [casein, whey, potato, egg] ), sucrose, starch hydrolisates (barley, rice),
