

## Sponser Multi Protein CFF 425g can

Multi Protein is a multi-component protein based on high-quality milk and whey protein from cross flow microfiltration and egg albumin. The physical preparation processes by means of ultra- and microfiltration guarantee the natural protein quality and offer the highest biological value.

**CHF 32.00**

The specific combination of protein sources provides an optimal amino acid profile according to the latest science, supports training for muscle building and promotes regeneration. Enriched with the free amino acid L-leucine. This has signal character and has a positive effect on the formation of muscle protein.

- Multi-component protein: whey, casein and egg albumin
- High-quality basic product to ensure a positive protein balance
- Need-based amino acid pattern with high content of essential amino acids incl. BCAA
- Minimizes muscle breakdown after exercise and promotes new muscle formation
- Tasty shake with 10 vitamins, calcium, magnesium and potassium
- Versatile use: muscle building, regeneration, meal replacement
- High content of essential amino acids incl. BCAAs
- filtered, native milk protein quality

### Application:

Intake ideally distributed throughout the day or after exercise. Approx. 2 scoops (20 g) + 250 ml milk in a shaker/mixer. When preparing with water, increase the amount of powder.

### Ingredients:

protein powder (milk protein from cross flow ultrafiltration, lactalbumin from cross flow microfiltration, egg albumin), flavors, L-leucine, magnesium carbonate, guar gum and xanthan gum, acesulfame K and
