

## Lojer double puller Speed Pulley 50 gray

The **Speed Pulley 50 double puller** is a versatile explosion hoist for wall mounting.

CHF 2'290.00

Individual adjustment of rope height and length allows standing and seated exercises. The Lojer double pulley Speed Pulley 50 is ideal for bilateral and high-speed strength training.

- Weight stack with protective cover
- consisting of 20 weight plates à 2,5 kg
- allows weight increments from 0.5 to 10 kg maximum pull weight due to the 5:1 gear ratio
- extremely quiet and smooth running, as the weight is only moved one fifth of the way at a time
- weight on both pull handles always identical: combination of both rope pulls on one handle and thus effective doubling of the load possible
- two versatile pull handles included
- wall mounting
- approved according to MPG
- dimensions (DxWxH): 22x32x230 cm
- color: grey
- wall mounting must be done on a stone or concrete wall - in most cases heavy duty anchors are the first choice for fixed mounting

Alternatively available as mobile version Lojer double traction apparatus Speed Pulley, mobile with central roller lifting system.
