- recommended price: 159.90

Size: approx. L200 x W100 x D1.5cm, weight 4.3kg

Color: anthracite

Medical purpose:

AIREX® products are designed as movement therapy aids for both institutional and domestic use. It is used as a support for a person during medically indicated and prescribed exercises to improve motor skills and balance or postural control and/or for the therapeutic exercise treatment of muscle weakness

in the limbs and trunk as a result of a neurological or orthopaedic condition.

Why are the sizes only given in "approx."? All AIREX mats are freely foamed. This means that they are not produced in molds. The production process is comparable to baking bread. The result can therefore be influenced by the ambient conditions (temperature, air pressure, etc.), so that the products always vary slightly in length, width and thickness.
