

## Sponser Liquid Energy Salty 40 x 35g

Liquid Energy Long is a highly concentrated energy gel and contains both fast and very slow available carbohydrate sources. Isomaltulose and betaglucan-containing barley fibers delay the sugar influx into the blood and make Liquid Energy Long a novel carbohydrate gel.

CHF 80.00

Liquid Energy Long is suitable as an additional energy supplement for long distances, where sweet supplements are often no longer used consistently towards the end for reasons of satiety. The salty yet neutral taste experience can also be taken generally in sports as a pleasant alternative to conventional gels. Liquid Energy Long is a 100% natural energy concentrate with no preservatives.

### Advantages:

- High-tech energy gel with fast- and slow-acting sugars especially for long distances
- Salty taste
- Easy handling thanks to practical portion bag

### Application

Ideal during long-term endurance efforts. Approx. 1 sachet per 20 minutes. Rinse with water.

### Ingredients

Glucose syrup, water, isomaltulose, barley starch hydrolisate, soluble barley fiber, table salt, tomato powder, potassium phosphate.

Packaging unit: 40 X 30g

Flavor: salty
