

## Theraband Accessories Kit

The Theraband accessories simplify the use of exercise bands and tubing in training and rehabilitation.

CHF 39.80

While the handles enable an easy and safe grip of bands and tubing, assist and foot loops increase their application possibilities.

People with low hand strength (e.g. with arthritis) are enabled to train effectively with bands and tubing.

With the help of the door anchor, exercise bands or tubing can be securely fixed in a closed door, enabling a versatile upper and lower body workout.

The Thera-Band accessory set consists of:

- 1 pair of handles
- 1 door anchor
- 1 Assist double loop
