

Finnlo power station Autark 600 (3929)

The AUTARK 600 strength station is the compact entry-level gym by FINNLO. Butterfly, latissimus pull and rowing are possible with the AUTARK 600 strength station as well as various cable pull variations, crunches and leg stretches. Triceps rope, latissimus bar and loops for variable grip positions included.

CHF 1'390.00

Another advantage of the loops: muscular pretension makes strength training even more effective. In the smallest space you can now train arms, chest, shoulders and back without having to leave the house.

The 80kg weight block of the AUTARK 600 strength station is divided into 16 5kg discs and is easily adjustable. In addition, it features a sturdy tubular steel frame and ball-bearing rollers.

Equipment:

- Latissimus pulling tower
- variable chest training with three exercise variations for butterfly, bench press and cable cross
- cable pulley at the bottom for varied arm and leg exercises
- pulley for abdominal exercise
- leg section for leg extension (sitting) and leg bending exercises (standing)
- adjustable backrest
- 80kg weight block(16 plates of 5kg each)
- weight magazine cover
- thick tubular steel frame for stability and safety
- sturdy construction and powder coating
- 1 user
- color: anthracite
- upholstery: black
- target price CHF 1'399.--
