

Option for SlimBeam: Accessory adapter

The SlimBeam accessory adapter made of electropolished stainless steel is needed, for example, to hang the pull-up bar. The stainless steel accessory adapter is attached to the front SlimBeam bar and can be continuously adjusted in height.

CHF 45.00

Optimal in combination with a training bench and an additional pull-up bar.

- with two wing nuts for firm hold
- it is possible to attach several accessory adapters to the guide bar
- also for hanging the reclining bench
