

Option for SlimBeam: lat pull-up set

The lat extension adds two pulleys for lat exercises to the upper pull-up bar on the SlimBeam.

CHF 49.00

Together with the trapezius muscle, the latissimus forms the upper back - with the lat pull-up set, this area can be particularly targeted and trained.

Lat pull-up bar aluminum and lat pull-up bar aluminum short available as an option and not included in delivery.

Note: Only for models from 1.6.2014 (for models before this production date please inquire).
