

NOHrD foot strap

Made of high-quality imitation leather with sewn-in felt. The foot strap is attached to the pull rope of the SlimBeam with a snap hook and used for foot and leg exercises. The foot strap is available in black.

CHF 29.00

The foot strap is a first-class extension for a leg & bottom workout, ideal for kick-backs, leg lifts and many other exercises. Improve strength, mobility and flexibility.

The foot strap is attached to the pull rope of the SlimBeam with a carabiner, during training it is attached to the foot or ankle with a strap and tightens itself without slipping. This means it remains reliable throughout training.
