

Squat dumbbells 2-20kg DISKUS

When something is perfect, the observer feels it at the first moment. All HOCK products radiate perfection, timelessness and elegance. They are the best possible symbiosis of quality, form and function. HOCK has its own style. It is recognisable in every product. A visual and haptic pleasure - Made in Germany (price from 2kg dumbbell)

CHF 560.00

DISKUS. The series was created on multiple customer requests to finally offer heavier weights.

The design is the perfection of a dumbbell. Every angle, every radius is coordinated and thus creates the image of a perfect dumbbell. The outer span creates the light refraction so typical of stainless steel. The wooden handle merges practically seamlessly into stainless steel. The stainless steel has been finely finished on CNC* controlled precision machines, no manual finishing is required to create the noble matte sheen.

Functional Construction: The certified walnut dumbbell handle has been tapered for a secure grip.

The angle on the inside of the dumbbell heads creates room for movement and also allows for a more relaxed grip if you want to grab the dumbbells by the heads. All edges are provided with radii, an injury by burrs or the like is impossible.

We still use only certified American walnut and food grade stainless steel. Oiled walnut is ideal to the touch and in general a very valuable solution from a health point of view, as no harmful substances or the like can be transferred through sweat. Stainless steel 1.4305 is food safe and hygienic. No heavy metals can diffuse or corrosion can occur.

- perfect mixture of form and function
- heavy duty construction in studio quality
- highly accurate dumbbells from 8-20kg (/-2% weight per dumbbell)
- 1.4305 food grade stainless steel
- Finely turned, polished and oiled walnut from sustainable, certified cultivation

- Extra raised handle for a warm grip feeling at all times
- Made in Germany
- Warranty: 5 years on all defects in material and workmanship
- Price per pair
