

## Tunturi E80 ergometer

The Tunturi Endurance line is the flagship of the new Tunturi cardio equipment. The Tunturi Endurance bikes, cross trainers, treadmills and rowing machines combine the best overall package of versatility, price/performance ratio and quality. The Endurance machines are perfect for ambitious home users.

CHF 1'499.00

The Tunturi Performance Bike E80 is a bicycle ergometer with 43 different programs and 58 resistance levels. The control panel has an integrated TFT display and simple menu navigation using a rotary knob. This makes this exercise bike ergometer very easy and intuitive to use.

With the integrated T-Road interface from Tunturi, you can virtually ride through different landscapes. But the potential is far from exhausted! Because this Tunturi ergometer bike also has the ability to connect a tablet or smartphone via Bluetooth and thus use the exciting functions and experiences of the Kinomap app. As soon as you do this, completely different possibilities unfold! Create an account and run around the world using Google Maps. Various measurements allow you to keep track of your training and share it with your friends on Facebook or Twitter.

The maximum user weight is 150 kg. In addition to the pulse measurement on the handles, a chest strap can also be used as an option. The resistance is electronically controlled and has a maximum output of 600 watts.

### Equipment:

- Electromagnetic braking system (EMS)
- Flywheel mass approx. 14 kg
- Low entry
- TFT color monitor with display of profiles, time, distance, speed, energy consumption, heart rate, power (watts), resistance level
- 58 resistance levels
- Manual training program
- Quick start function

- 10 pre-programmed load profiles
- 1 pulse program
- 6 watt programs (constant power) (600 watts)
- 20 user programs (users can generate their own load profiles)
- Number of users that can be registered: 10 people
- 10 selectable languages
- User diary
- 1 fitness test: Multi step VO2 Max
- 5 T-Ride programs: Ride through various graphically depicted landscapes. The route profiles require the gears to be used optimally
- 3 T-Road programs: for playing real landscape routes. The films are played on the integrated 10-inch display depending on the speed
- self-righting Comfort Plus pedals
- Adjustable console
- multi-position handlebars
- comfort saddle
- horizontal and vertical adjustment of the saddle
- hand pulse sensors
- Water bottle holder
- Bluetooth compatible
- USB charging station
- user diary
- Tablet holder
- Transport wheels
- Color: ivory

Use: home to light institutional use, payload: approx. 150kg

Device dimensions: L102 x W59 x H158cm, weight 47kg

Accessories: hand pulse sensors, integrated Polar receiver

Option: transmitter belt

Warranty: **CH warranty** (warranty from Swiss general distributor) - 1 year full warranty, 2 years on labor and spare parts (excluding consumables).

Brake system: electronically controlled magnetic brake system

Current-dependent: Yes

Horizontal seat adjustment: Yes

Handlebar adjustable: Yes

Resistance levels: 58

Training computer: TFT color monitor

Displayed values: Speed, time, distance, RPM, energy consumption, heart rate, power (watts), load profiles

Training programs: 43

Pulse-controlled programs: 1

User-defined programs: 20

Hand pulse sensors: Yes

Pulse receiver: 5kHz and Bluetooth

Multimedia: Bluetooth interface, USB port, motion dynamic treads, water bottle holder, tablet holder.

Accessories: integrated receiver for chest strap transmitter

Options: Bluetooth transmitter belt, floor protection mat

Dimensions (length / width / height): L 102 x W 59 x H 158 cm

Device weight: 47 kg

Payload: approx. 150 kg

Insert: Home

Warranty: 1 year full warranty, 2 years on labor and spare parts
