

Micro Mobility Systems Flex Blue 200mm (SA0038)

Absorbs unevenness thanks to flexible wooden deck made of fibreglass

".

CHF 239.00

Take the patented wooden deck with fiberglass from the Micro Scooter Flex, combine it with the extra large 200 mm PU wheels from the Micro Scooter Black and give the whole thing a little color - et voilà! This is the Micro Scooter Flex 200 mm! The flexible wooden footboard swings slightly when riding and thus has a shock-absorbing effect on uneven surfaces. This aluminium scooter is ideal for all those who like it cosy and attach importance to a special look. Because its specially treated surface is a special eye-catcher.

- This scooter has a device for the carrying strap
- Multi-Mount Clip - the Multi-Mount Clip ensures easy attachment of the handles during carrying
- Plastic handlebar guide - thanks to the special plastic handlebar guide, the handlebar can be adjusted easily and smoothly without the aluminium rubbing against each other and seizing up.
- Highend wheels - the extra large 200 mm PU wheels are made of high quality PU. Additionally they are equipped with a splash guard.
- Practical folding mechanism - patented folding mechanism for best possible safety
- Flexible footboard made of fibreglass-reinforced wood, skilfully absorbs vibrations on uneven surfaces
- Innovative kick stand - innovative kick stand - folds away to the front and back - for effortless parking of the scooter.
