

Schiek Grip Pads 900GPS

Schiek Grip Pads for extra strong grip - no more slipping.

CHF 44.90

Thanks to a non-slip rubber coating on the inside, you will always have the perfect, non-slip grip during your exercise and thus more safety. So that the grip pads do not slip during the training exercise, there are three finger loops on the back for a secure grip.

The Grip Pads protect your hands from abrasions and blisters and are great for those people who don't want to wear weightlifting gloves.
