

Sponser Pro Casein 850g can

Micellar casein (milk protein isolate) produced by Cross Flow Microfiltration (CFM) for highest natural protein quality. Naturally contains calcium, phosphorus and potassium.

CHF 47.00

Casein is characterized by its long gastric residence time and the resulting slow influx of amino acids into the blood. Casein is therefore often used as a "night protein".

Advantage:

- Micellar casein from microfiltration
- Long lasting amino acid supply
- Rich in calcium, phosphorus and potassium
- BCAA total (2808 mg BCAA/Portion 13.5g)

Packaging unit: 850g can
Flavor: Vanilla, Chocolate

Content: 850g
