

Loumet medicine ball 8kg / 9kg - Sale

SALE - available while stocks last

To slam or not to slam, for once it's not a question: you may! - the LOUMET GYMBALLs are the most durable and reliable medicine balls on the market today. They are specially designed and manufactured for all hard surfaces. The ball combines the strength of a normal "dead" ball with the bounce of a medicine ball. They are specially designed and manufactured for all hard surfaces.

CHF 90.00

The ball combines the strength of a normal "dead" ball with the bounce of a medicine ball. Over 20 years have passed since Loumet manufactured its first GYMBALL and since then thousands of athletes, coaches, gyms and schools have recognized the superiority of its durability and performance. The LOUMET GYMBALL, thanks to its quality and unique construction, leaves other medicine balls on the market far behind. It highlights the weak points of cheap rubber medicine balls and succeeds in closing the gap between durability, reliability, performance and cost-effectiveness.

8kg CHF 90.--

9kg CHF 99.--
