

## Schiek Deluxe pull strap with metal dowel pink 1000DLS

The Schiek Sports Model 1000DLS has a soft neoprene wrist guard, in combination with a special locking dowel technology to minimize wrist stress when lifting heavy weights.

**CHF 55.90**

This special metal dowel at the end of the traction aid serves as a wedge between the hand and the weight bar. This unique invention offers you an alternative to the slightly longer traction aids and has the advantage that you can release it quickly at any time without the traction aids getting wedged, which can happen from time to time with the simple traction aids when tightening.

- 15cm long pull strap with incorporated metal dowel for easier handling
- The dowel is clamped between the hand and the dumbbell bar
- Triple stitching (Made by hand)
- Ideal for strength athletes who do not like to train with long bands
- Optimal for a quick workout
- Ingeniously simple to use
- Made for powerlifters and weightlifters
- Made in the USA
- Price per pair
- Color: pink/black
