

## Schiek Power Lifting Belt Model 3006

Schiek Sports weightlifting belts are specially designed and handcrafted to provide the maximum support necessary for the back. The Power Belt 3006 has an extra reinforcement of a neoprene surface coating to support the Schiek belt at the back even better. The belt is therefore harder than the 2006 model and has a higher stiffness.

**CHF 145.90**

Every feature that the Schiek Training Belt offers you is specifically designed for health. Schiek Sports training belts offer accuracy of fit, comfort, as well as support to the fullest.

This has earned Schiek Sports the reputation in the world as the most inventive manufacturer of weightlifting belts.

Schiek Sports patented ONE-WAY closure system Velcroreg: allows you to fully customize the belt while the patented and unique design provides maximum comfort and flexibility. The 3006 Training Belt is designed for taller individuals who require greater and more secure support. Made in the USA and backed by a 2 year WARRANTY from the manufacturer.

The tapered shape of Schiek belts and the patented hip and rib shape provide an impeccably tailored fit. And because the belts are wide in the front and back, you get much better hip and abdominal support that is needed.

- to support the spine under heavy weight loads
- **extra reinforcement from a neoprene surface coating to support the Schiek belt at the back even better**
