

Body Solid Dip Attachment (DR378) for Power Rack GPR378

The dip exercise is one of the most popular exercises to develop strong shoulders and arms. With the optional DR378 Dip Attachment you can turn the GPR378 Body Solid Power Rack into an amazing dip station. The DR378 Dip Station offers unmatched stability. The large 1.5-inch handles are more comfortable than the smaller handles typically used for dip attachments. The handles taper to ensure users of all sizes have a proper fit and starting position. Take your Body Solid GPR378 to the next level with the optional DR378 Dip Attachment.
