

## Option for SlimBeam: lat bar aluminium

Lat bar made of feather-light aluminium and with ribbed surface for optimal grip. For back, upper torso and lat exercises.

**CHF 139.00**

The slightly curved handles create different grip variations for particularly joint-friendly strength training on the SlimBeam. The professional lat pull bar made of aluminium is a practical pulling aid for the cable pull. Thus, the SlimBeam is extended by varied exercises for the upper body.
