

## Body Solid Squat/Calf Block SCB26

The Body Solid Squat/Calf Block SCB26 is a combined squat platform to stabilize the user during squat exercises and a calf block for the most intense calf raise exercises with full range of motion and total comfort. The calf block enables greater stretching and contraction of all calf muscles. A long squat platform allows the user to lift the heels for better balance and concentration.

**CHF 149.00**

- Calf block with L45.7 x H16.5cm
