60-65cm diameter suitable for body heights from 155-185cm  
70-75cm diameter suitable for body heights from 185-200cm

Tips for exact sizing:

### TIP 1

Would you like to use the VLUV for working at a desk or a table with a normal table height of approx. 72-75cm? Then choose this model with a diameter of 60-65 cm, even if you are taller than 185 cm, so that you can sit down safely and comfortably. If you have a height-adjustable table or would like to use the VLUV for free sitting, you can use our height guide.

### TIP 2:

If you are within the 185 cm height limit, it is best to decide whether you would like to sit in a sporty and

ambitious position or comfortably and more securely. In the first case, please opt for the model with a diameter of 70-75cm. If you prefer to sit a little more comfortably and lower, it is better to choose the model with a diameter of 60-65 cm.
