

Leg press for TuffStuff SXT-550 and AXT-225 multistations

The TuffStuff leg press SXT-LP can be attached as an option to the power station SXT-550 and AXT-225. Through a 2:1 ratio, a training weight of up to 180kg is achieved. The starting position of the leg press exercise can be adjusted in six steps. This allows people of different heights to perform the exercise through the full range of motion.

CHF 1'990.00

Equipment:

- the leg press does not have its own weight block. It is connected to the weight block (90kg) of the main station (SXT-550/AXT-225).
- Transmission ratio: 2:1 (maximum adjustable training weight: 180kg)
- starting point of the seat 6 times adjustable
- large rubberized footplate
- ball bearing guide rollers
- lateral handholds on the seat unit help to perform the exercise
- high quality seat and back cushion.
- frame color: platinum
- upholstery color standard: black/grey

Use: home use to light institutional use, payload: approx. 200kg
