

TuffStuff CDP-300 Evolution Dual Adjustable Pulley System

TuffStuff's Evolution Dual Adjustable Pulley System (CDP-300) features a compact, open frame design that easily fits in a corner. The functional trainer allows users to perform dozens of exercises with two 16-position, dual adjustable high/low cable stations. The CDP-300 also includes a nickel-plated pull-up bar for wide, narrow, reverse and neutral grips.

CHF 3'690.00

The CDP-300 Evolution Dual Adjustable Pulley from Tuff Stuff is an extremely versatile piece of exercise equipment. Using two independently height-adjustable pulleys, pulling exercises can be performed horizontally, from top to bottom and from bottom to top. Functional movement sequences can be performed as well as classic strength exercises. Strength training, stability training, high-speed strength training or movement therapy can be trained on the dual cable pull station CDP-300.

Features:

- 2 height-adjustable cable pulls (16 positions) for a variety of training options
- compact, space-saving corner design for any facility size
- adjustable cable ratio of 1:2 or 1:4 for extended cable travel
- 3-dimensional pull directions allow unlimited anatomical training exercises from different angles for general strength training or sport-specific training exercises
- two weight magazines allow left and right independent, isolateral movement executions
- electro-welded sturdy frame construction
- plastic-coated steel cables from the aircraft industry
- ball bearing guide rollers for smooth pulling action
- 2 x 67,5kg weight magazine made of black high quality steel
- integrated pull-up bar
- wide base frame for easy accessibility of wheelchair, rehab material, training bench or exercise ball
- integrated storage for handles
- frame color: Platinum
- exercise illustrations on the panelling
