

Tunturi Platinum Pro recumbent exercise bike (14PTRB2000)

Platinum PRO is the highest quality line from Tunturi. These machines are perfect for ambitious home users, physiotherapists, schools and public gyms.

CHF 3'699.00

With the Tunturi Platinum PRO Recumbent Bike recumbent bike ergometer you can choose between 43 programs and 42 resistance levels. It has an integrated LCD color display with lighting, which is easy to operate with the buttons and rotary wheel. The maximum user weight is 150 kg. The heart rate is measured on the handles as standard; a 5.4 kHz chest strap can be used as an option. The resistance is electronically controlled and is a maximum of 350 watts at 60 revolutions and 440 watts at 100 revolutions.

The special feature of the Platinum PRO recumbent ergometer is the integrated 7-inch monitor, on which a variety of functions make endurance training interesting and varied. For example, the Tunturi 'T-Road', a function with which you can move through real, existing paths through old towns, forests and mountains, with ascents and descents.

Recumbent bikes have the great advantage that they take a lot of strain off the back. The low sitting position also stimulates the blood circulation in the legs better and the entry is safer and more comfortable.

The ergonomic design of this recumbent bike is adjustable so that users can always train comfortably.

Features:

- Electromagnetic eddy current brake (EMS induction braking system)
- 7-inch color LCD display with selection wheel for quick navigation and with display of speed, time, distance, RPM, energy consumption, heart rate, power (watts), load profiles

- 37 resistance levels
- Manual training program
- Quick start function
- 10 pre-programmed load profiles
- 6 heart rate programs (HRC load profiles - constant HRC, 5 pre-programmed load profiles)
- Watt program (constant power) (20-350 watts)
- 20 user programs (own load profiles can be generated by the user)
- Number of users that can be registered: 8 people
- 10 selectable languages
- User diary
- Fitness test: Multi step VO2 Max
- T-Ride programs: Ride through various graphically depicted landscapes. The route profiles require the gears to be used optimally
- T-Road programs: for playing real landscape routes. The films are played on the integrated 10-inch display depending on the speed
- Race program
- Specifications: Time, distance, calorie consumption
- Fitness test function: measurement of the recovery heart rate
- Resistance setting in 5 watt steps
- Pedal power 350W-60rpm, 440W-100rpm
- Horizontal seat adjustment
- transport rollers
- hand pulse sensors
- Water bottle holder
- USB port (for update/service purposes only)
- Color: black/silver

Use: Home to commercial continuous use, payload: approx. 150kg

Device dimensions: L160 x W74 x H128cm, weight 82kg

Accessories: Hand pulse sensors, integrated Polar receiver

Option: Transmitter belt

Warranty: **CH warranty** (warranty from Swiss general distributor) - 1 year full warranty, 2 years on labor and spare parts (excluding consumables).

Brake system: Induction brake system

Current-dependent: Yes

Backrest adjustable: Yes

Resistance levels: 37

Training computer: 7 inch LCD display

Displayed values: Display of speed, time, distance, RPM, energy consumption, heart rate, power (watts), load profiles

Training programs: 43

Pulse-controlled programs: 6

User-defined programs: 20

Hand pulse sensors: Yes

Pulse receiver: 5kHz and Bluetooth

Multimedia: USB port, water bottle holder, tablet holder

Accessories: integrated receiver for chest strap transmitter

Options: Bluetooth transmitter belt, floor protection mat

Dimensions (length / width / height): L 160 x W 74 x H 128 cm

Device weight: 82 kg

Payload: approx. 150 kg

Insert: Heinbereich bis kommerzieller Dauereinsatz

Warranty: 1 year full warranty, 2 years on labor and spare parts

Features: Multi step VO2 Max, pedaling power 350W-60rpm, 440W-100rpm
