

Finnlo Puzzle floor protection mats in wood design (99997)

The Finnlo floor mats in wooden design are perfect to protect sensitive floors in front of large fitness equipment like cardio machines, treadmills or power stations and they dampen noises pleasantly.

CHF 74.90

This puzzle mat is versatile and has been made in a beautiful wood look so that it perfectly adapts to your floor and thus a pleasant living feeling remains.

The 6-piece puzzle mat has particularly good cushioning properties and is also perfect for placing weights when weight training. It is put together and ready for use in just a few minutes. Just as quickly, the mat can be disassembled again and stored in a compact state.

Due to the multi-sided interlocking, the floor mats in wooden design can be laid easily and safely. Slipping apart is reliably prevented. The mats are thick and very firm. Thus, a good damping of the training noise is achieved.

The puzzle mat by FINNLO can be extended endlessly and covers every floor surface slip-proof and clean.
