

## Body Solid Butterfly / Back Deltoid Machine GPM65

The Body Solid Pec Dec/Back Deltoid machine for strengthening the chest, shoulder and back muscles. Two machines in one and both offer unrestricted freedom of movement.

**CHF 629.00**

Dual cams with variable overhead resistance allow each arm to operate independently, providing unilateral and bilateral chest, back and shoulder conditioning. Independent range of motion provides a deep, full stretch for all users. Uniquely designed articulated arms provided optimal chest and posterior deltoid muscle development. The heavy weight and low-profile design provide excellent balance and control when pushed to the limit.

### **Features:**

- adjustable lever arms for different starting positions
- swivel handles for unilateral and bilateral range of motion
- height adjustable seat cushion
- extra strong, high-quality DuraFirm padding, tear-resistant with double stitching
- robust frame construction
- for 26mm discs

Use: home use, payload disc support 115kg

Machine dimensions: L81 x W171 x H165cm, weight 41kg

Option: discs, adapter for 51mm discs

Warranty: 2 years on labor and spare parts (excluding consumables)
