

Sponser Pro Pyrumax 280 capsules

Creatine Pyrumax - High Performance Complex with creatine pyruvate, creatine monohydrate and magnesium in one formula. Creatine enhances the physical performance of high-speed power output in the context of short-term, intense physical stress.

CHF 59.00

Creatine is considered a performance supplement and is preferably taken as part of the energy supply in anaerobic alactacid and high-speed sports (sprinting, swimming, rowing, throwing) or in the field of muscle and strength building. Through the performance enhancement of short-term intensive high-speed power, the muscles can be trained more effectively and performance increases can be achieved efficiently. Creatine Pyrumax -Formula is suitable for all who want to optimally complement the benefits of creatine monohydrate. Creatine pyruvate is characterized by its improved solubility and ultimately improved physiological absorption capacity. Magnesium supports normal muscle function and serves normal protein synthesis.

- Creatine improves performance during high-intensity, high-speed strength workouts
- Innovative product formulation based on 3 raw materials
- Maximum certified quality and purity guarantee

Directions:

Take 7 capsules daily, ideally with a carbohydrate drink, divided into 2 servings.

Do not exceed recommended daily dose. In addition to a varied and balanced diet and a healthy lifestyle. Not suitable for growing children and adolescents, not intended for long-term use. Weight gain may occur.

Ingredients:

Creatine pyruvate, creatine monohydrate, hydroxypropyl methylcellulose (capsule), rice starch, anti-caking agents (silica, magnesium stearate), magnesium bisglycinate.

Packaging unit: 280 capsules.
