

Sponser Ultra Competition 1kg can

The new sports drink **ULTRA COMPETITION** by SPONSERreg: was developed specifically for the requirements of ultra and long distance (from 8-12h). The highly complex hypotonic nutrient solution based on waxy corn starch and gluten-free starch hydrolisates from barley and rice provide long-lasting energy supply and a low glycemic index. In particular, this sports drink is also suitable for fructose intolerances, as it contains no free fructose. In addition, it is lactose and acid-free and can be dosed individually thanks to its neutral taste.

ULTRA COMPETITION by SPONSER is a highly complex nutrient solution, specially developed for the requirements of ultra and long distance. Waxy corn starch as well as gluten-free starch hydrolisates from barley and rice provide long-lasting energy supply and a low glycemic index.

Waxy maize starch is a branched-chain glucose molecule with a very large molecular size. Unlike single or double sugars, up to 1000 or more molecules of waxy maize starch are present in a branched form. Although the long-chain and relatively complex structure is rapidly emptied from the stomach, it is only hesitantly broken down to glucose by enzymes. The insulin rise in a beverage consisting mainly of waxy maize starch is therefore significantly lower than in commercially available carbomixes.

Without gluten, lactose, isomaltulose as well as free fructose. Nutrients that are often poorly tolerated during ultra-loads under stress conditions and therefore have a performance-limiting effect.

- deep glycemic mode of action, especially suitable for long-distance training
- different use: as a highly concentrated solution or sports drink
- very high tolerance
- without added fructose, gluten- and lactose-free, without acidifiers.
- easy handling
- without artificial colors and sweeteners

- mild own taste, can be flavored individually

Application:

Particularly suitable for endurance efforts from 8-12 h duration. As a sports drink recommended for use with a dosage of 60-100 g/liter.

When used as a watery gel, dissolve up to 60 g per 300 ml of water depending on energy requirements and drink in sips every 10-15 min. If thirsty, drink additional water. Ultra Competition can be flavored as desired with the addition of syrup, fruit extracts, tea, etc.

Ingredients:

waxy corn starch 33%, maltodextrin, sucrose, starch hydrolisates (barley, rice), 5 mineral salts (sodium citrate, calcium lactate, magnesium citrate, sodium chloride, potassium citrate).

Packaging unit: 1kg can

Flavor: neutral

Content: 1000g
