60-65cm diameter suitable for body sizes from 155-185cm

70-75cm diameter suitable for body sizes from 185-200cm

Tips for exact sizing:

TIP 1

You want to use the VLUV for working at a desk or table with normal table height approx. 72-75cm? Then you better reach for this model in 60-65cm diameter, even if you are taller than 185cm, so that you can sit safely and comfortably. If you have a height-adjustable table or want to use the VLUV for free sitting, you can go by our height guide.

TIP 2:

If you are within the 185cm height limit, it is best to decide whether you would like to sit athletically and ambitiously or comfortably and more safely. In the first case, please choose the model in 70-75cm diameter. If you prefer to sit a little more comfortable and lower, so you better choose the model in 60-65cm diameter.
