Hanger for pictures or anchor point for the TRX Suspension Trainer? The answer is both!

The TRX Invizi-Mount is your alternative if you don't have a stable ceiling for mounting a TRX Xmount. With it, you can turn any room into your own personal home gym.

The TRX Invizi-Mount consists of a solid metal plate that can be attached to any load-bearing wall with two screws. Then all you have to do is latch on the TRX Suspension Trainer and your workout is ready to go.

After the workout you can use the TRX Invizi-Mount as a hanger for pictures or other things and your home gym becomes your bedroom, living room or office again.

- Dimensions (L/W): 15,5 cm x 4 cm
- Can be used as an anchor for suspension training and hanger for pictures, etc.
- Screws included (no dowels included)
- Be sure to check the wall - We recommend mounting in concrete walls.
