

## The NOHrD Bike black

The NOHrD Bike - the ideal indoor bike that is visually unparalleled. Flowing lines, clear structure and high-quality woods. Due to the protected, revolutionary planetary gear and the stable wooden frame, the bike is extremely robust and durable - thus ideally suited for professional use in the studio or at home.

**CHF 2'799.00**

The NOHrD Bike Walnut (wood ash black lacquered / frame black) - the ideal indoor bike, which is visually unparalleled.

The absolutely minimalist design extends to the last detail. All components are harmoniously matched, the flowing lines form a clear structure. Overall, this results in pure ergonomics that allow for comfortable as well as race-like training positions. The cyclist is supported by the elongated handlebars, which offer many grip and support options.

With the help of the specially developed app, which transmits the recorded performance data wirelessly via Bluetooth to a tablet, the user can track and analyze his respective workout with pinpoint accuracy. The tablet can simply be clamped in the practical holder during the workout. This keeps it secure and in view.

Download the **NOHrD Bike App** here: **Google Play Store** and **Iphone App Store**

Thanks to its extremely compact design, the NOHrD Bike requires only a minimum of space: with a footprint of just 0.44sqm, it easily blends seamlessly into any living environment.

### **Resistance**

The pedaling resistance can be adjusted continuously and precisely - with just a slight twisting motion, the resistance adjusts to the cyclist's desire.

### **Gearbox**

Thanks to the innovative and completely newly developed planetary gear as well as the smooth, wear-free braking technology through eddy current, the NOHrD Bike becomes a faithful and long-lasting companion in everyday life.

### **Training app**

The tablet can simply be clamped in the practical holder during training. This way it is secure and in view, the user has all data at a glance.

### **Train and work**

The handlebars can be folded down in one easy step, and a laptop can be placed on them using an optional support. The height of the handlebar and the position of the support can be easily adjusted.

### **Space-saving**

Thanks to its extremely compact design, the NOHrD Bike requires only a minimum of space: with a footprint of just 0.44 sqm, it fits seamlessly into any living environment.

### **Storage**

After the workout, the bike can be stored quickly and easily to save space thanks to rubberized wheels on the rear feet.

### **Different models - in different woods**

The NOHrD Bike is manufactured from classic NOHrD woods: high-quality oak, ash, cherry and walnut wood from renewable sources is used for the frame. All metal parts are made of powder-coated steel.

### **The NOHrD Bike supports Bluetooth FTMS and ANT+FE-C (from S/N NB06898)**

FTMS is the standardized protocol - it allows the NOHrD Bike to pair with other apps and operating systems. The connection with Zwift, Kinomap etc. is possible with it. FE-C is based on ANT+.

### **Technical details**

- planetary gear with 1:8 ratio
- infinitely variable resistance adjustment by magnetic brake
- saddle stroke 21cm for body sizes from 160-200cm (saddle stroke XS instead of standard saddle stroke for smaller body sizes available without extra charge for body sizes from 150-185cm)
- with wide platform pedals - give the feet a secure hold, equally shaped on both sides for a comfortable riding experience. They are optimal for normal footwear
- Training APP included
- training data is transmitted via Bluetooth to the NOHrD Bike APP, which is available for tablets with Android and iOS
- integrated tablet holder
- handlebar stroke 27,5cm
- Saddle tilt angle 30degrees
- flywheel mass 5,5kg, D40cm

- universal saddle mount
- rubberized wheels for easy movement
- includes battery pack and integrated USB charging port

Use: home to commercial continuous use, payload: approx. 200kg

Equipment dimensions: L80 x W60 x H120cm, weight approx. 60kg

Options: Comfort saddle, Brooks saddle, combination pedals, pedal hook with leather strap, bottle holder, laptop rest, backrest, USB extension cable

Warranty: 2 years warranty on labor and spare parts (excludes consumables)

Brake system: Manual magnetic brake

Current-dependent: No

Horizontal seat adjustment: Yes

Handlebar adjustable: Yes

Resistance levels: Planetary gear with 1:8 ratio

Training computer: Tablet / Smartphone / APP

Displayed values: Time, speed, RPM, calories, distance, resistance, heart rate

Training programs: With APP +15 programs

Pulse-controlled programs: keine

User-defined programs: keine

Hand pulse sensors: No

Pulse receiver: Bluetooth

Multimedia: Bluetooth interface, USB port, entertainment APP's, Nohrd Bike APP, tablet holder.

Accessories: integrated receiver for chest strap transmitter

Options: Comfort saddle, Brooks saddle, combination pedals, pedal hook with leather strap, bottle holder, laptop rest, backrest, USB extension cable.

Dimensions (length / width / height): L 80 x W 60 x H 120 cm

Device weight: approx. 60 kg

Payload: approx. 200 kg

Insert: Home

Warranty: 2 years warranty on labor and spare parts

Features: Universal saddle bracket, saddle tilt angle 30 degrees, saddle stroke 21cm for body sizes from 160 - 200 cm
