

The NOHRD Bike cherry

The NOHRD bike that is visually unparalleled. For a varied training experience, the device can also be connected to the NOHRD app via Bluetooth (Android or IOS). Flowing lines, clean structure and high-quality woods. Thanks to the protected, revolutionary planetary gear and the sturdy wooden frame, the bike is extremely robust and durable - in other words, ideally suited for professional use in the studio or at home. The cyclist is supported by the elongated handlebars, which offer various grip and support options. Due to the innovative gear type as well as the smooth, wear-free magnetic brake, the NOHRD bike becomes a faithful and durable companion in everyday life. The pedaling resistance can be adjusted steplessly and precisely with just a slight twisting motion.

The design - form meets function

The NOHRD Bike offers a sleek, minimalist aesthetic with advanced, modern technology. The solid wooden frame is a real eye-catcher in any environment and is combined with black powder-coated elements. The handlebars and saddle can be adjusted to your needs in just a few simple steps. The absolutely minimalist design extends to the last detail. All components are harmoniously matched, the flowing lines form a clear structure. Overall, this results in pure ergonomics that allow comfortable as well as race-like training positions. The cyclist is supported by the elongated handlebars, which offer many grip and support options.

Training

There is a reason that bicycle ergometers have always been popular fitness equipment. Training with them is conceivably simple and effective - as well as easy to learn and healthy for joints and back. With the high-quality indoor bike NOHRD Bike can be trained completely independently of wind and weather, the workout can be planned and executed at any time of the day or night - and be as strenuous as desired.

**The planetary gear - with eddy current brake**

The innovative planetary gear with frictionless eddy current brake technology offers a smooth ride. Resistance can be infinitely and precisely adjusted via rotary motion.

The APPs - maximum connectivity

With the help of the specially developed app, which transmits the recorded performance data wirelessly via Bluetooth to a tablet, the user can track and analyze his respective workout with pinpoint accuracy. The tablet can simply be clamped in the practical holder during the workout. This keeps it secure and in view. Tablet not included. Download the **NOHRD Bike App** here: **Google Play Store** and **Iphone App Store**. As an option to the NOHRD Bike App, the NOHRD Bike can easily be connected and used with other Apps like ZWIFT, BKOOL or Rouvy via Bluetooth.

Resistance

The pedaling resistance can be adjusted continuously and precisely - with just a slight twist, the resistance adjusts to the cyclist's preference.

Gearbox

The innovative and completely newly developed planetary gearbox and the smooth, wear-free braking technology by eddy current make the NOHRD bike a faithful and durable companion in everyday life.

The handlebars - everything under control

The handlebars always provide a secure grip in different positions. It is covered with a supple black rubber and can be easily cleaned.

Space-saving

Thanks to its extremely compact design, the NOHRD Bike requires a minimum of space: with a footprint of just 0.44sqm, it fits seamlessly into any living environment.

Storage

After the workout, the bike can be stored quickly and easily to save space thanks to rubberized rollers on the rear feet.

Different models - in different woods

The NOHRD Bike is made of classic NOHRD woods: high-quality oak, ash, cherry and walnut wood from renewable sources is used for the frame. All metal parts are made of powder-coated steel.

The NOHRD Bike supports Bluetooth FTMS and ANT+FE-C (from S/N NB06898)

FTMS is the standardized protocol - it allows the NOHRD Bike to pair with other apps and operating systems. The connection with Zwift, Kinomap etc. is possible with it. FE-C is based on ANT+.

Technical details

- planetary gear with 1:8 ratio
- stepless resistance adjustment via magnetic brake by means of a turntable
- saddle stroke 21cm for body sizes from 160-200cm (saddle stroke XS instead of standard saddle stroke for smaller body sizes available without extra charge for body sizes from 150-185cm)
- with wide platform pedals - give the feet a secure hold, equally shaped on both sides for a comfortable riding experience. They are optimal for normal footwear
- training APP included

- adjustable handlebar and saddle
- handlebar stroke 27.5cm
- saddle tilt angle 30degrees
- flywheel mass 5,5kg, D40cm
- universal saddle holder
- foldable tablet holder
- rubberized wheels for easy moving
- space saving - less than 1sqm
- Finish: cherry

Use: home use to commercial continuous use, payload: approx. 200kg

Unit dimensions: L80 x W60 x H120cm, footprint 90 x 65cm, weight approx. 60kg

Options: Comfort saddle, Brooks saddle, combination pedals, pedal hook with leather strap, bottle holder, backrest, USB extension cable

Warranty: 2 years warranty on labor and parts (excludes consumables).

Brake system: Manual magnetic brake

Current-dependent: No

Horizontal seat adjustment: Yes

Handlebar adjustable: Yes

Resistance levels: Planetary gear with 1:8 ratio

Training computer: Tablet / Smartphone / APP

Displayed values: Time, speed, RPM, calories, distance, resistance, heart rate

Training programs: With APP +15 programs

Pulse-controlled programs: keine

User-defined programs: keine

Hand pulse sensors: No

Pulse receiver: Bluetooth

Multimedia: Bluetooth interface, USB port, entertainment APP's, Nohrd Bike APP, tablet holder.

Accessories: integrated receiver for chest strap transmitter

Options: Comfort saddle, Brooks saddle, combination pedals, pedal hook with leather strap, bottle holder, laptop rest, backrest, USB extension cable.

Dimensions (length / width / height): L 80 x W 60 x H 120 cm

Device weight: approx. 60 kg

Payload: approx. 200 kg

Insert: Home

Warranty: 2 years warranty on labor and spare parts

Features: Universal saddle bracket, saddle tilt angle 30 degrees, saddle stroke 21cm for body sizes from 160 - 200 cm
