

## Tunturi strength station HG20

The affordable strength station HG20 from Tunturi for a targeted muscle building workout. The Tunturi HG20 Home Gym strength station is a compact exercise bike for training at home. The weight station for a targeted muscle building workout comes with a 60kg stack of plug-in weights. The upper pulley system is equipped with a lat bar, while the lower pulley system is equipped with a straight bar. An extra feature of this strength station is the dual function - the home gym comes with multiple handles for chest press and butterfly. The arm curl pad are height adjustable and the leg extension is covered with a foam roller for more comfort during the workout.
