The WallBars, the classic among the sports equipment, has an integrated outrigger that can be easily folded out. Hanging exercises and pull-ups on the WallBars - the top rung folds out with ease and locks into place with a noticeable click. The sturdy outrigger provides ample space for strengthening hanging and swinging exercises.

Additional accessories such as CombiTrainer, MultiAdapter and training bench turn the WallBars wall bars into a multifunctional training station. All rungs are individually bolted for effective training and provide optimal support.

Solid wood, load-bearing safety ropes on the outrigger and an additional locking mechanism make the wall bars safe and stable - optimal for multifunctional training sessions.

Each WallBars from NOHrD is handmade in the in-house manufactory and is subject to the highest quality standards!
