

Micro Mobility Systems Suspension Bronze (SA0065)

The Micro Suspension lives up to its name: With its special suspension, the scooter effortlessly follows bumps in the road and thus ensures even grip.

CHF 229.00

Goodbye shaking and jolting - even on particularly rough roads, the suspension (front and rear) optimally absorbs every shock.

Suspension:

Due to the front wheel and integrated footboard suspension in the rear wheel, the Micro Suspension skillfully absorbs shocks and is therefore suitable for rides on uneven surfaces.
