

Life Fitness Club Series + Ergometer

The Life Fitness Club Series+ is built on over 20 years of reliability, innovation and insights gained from developing dependable cardio equipment used in fitness clubs around the globe. The next generation Club Series+ cross trainer is more solid and sleek than ever - but with the same proven durability. This completely redesigned and redesigned ergometer scores with intuitive technology, advanced features and a modern frame design that looks great and fits well in the home. New generation LED consoles - connectivity technology for Apple Watch® compatibility and Bluetooth® connectivity are integrated into the Integrity SL console. The Integrity SL console offers an intuitive cardio experience combined with the connectivity to fitness apps and wearables that exercisers have come to expect.

CHF 4'990.00

Several combination options for seated ergometers offer a comfortable and attractive experience for all groups of people. The Integrity series boasts a sleek and modern design and has its origins in over 20 years of reliability and innovation.

COMFORTABLE RIDE

With the Comfort Curve seat, which has 42 precise seat settings, you can find the right position for you. And thanks to the self-balancing Wide Ride pedals with simple buckle straps, you can just get on and go.

ERGONOMIC RACING STYLE HANDLEBARS

The handlebars are designed for cruising, hybrid and racing positions. Thanks to integrated resistance controls, you can easily make changes during your workout. The elbow pads provide additional comfort.

SMOOTH, QUIET RUN

The generator drive system with 8-ribbed poly-V-belt resistance ensures smooth and quiet operation and requires little to no maintenance.

ADVANCED TRAINING TECHNOLOGY

The intuitive touchscreen console provides a connected running experience. Your last workout is automatically saved so you can replay it and target improvements in your performance. You can challenge yourself with our latest workouts, which are automatically updated. You also have the option to track your progress over time and transfer workout data to your favorite apps via Bluetooth and NFC.

Features:

- Generator drive system with 8-ribbed Poly-V belt for smooth and quiet operation and low maintenance requirements
- Brushed stainless steel ventilation detail
- 0-25 resistance levels
- Maximum resistance 500Watt
- Deluxe road bike style handlebars - ergonomic design with elbow rests
- SL training computer with large LED display and display of rpm, MPH/KPH, calories, distance, remaining/expired time, level, watts, heart rate
- Manual program
- Quick start function
- Hill program
- Random program
- Target programs: Time target, distance target, calorie target, heart rate target, METs target, watt target
- Resistance interval
- Workout replay - repeat a previous workout with just one click
- Trend training programs (compiled by the trainer, are updated automatically)
