

## Sponser Whey Triple Source Protein 500g Bag

WHEY TRIPLE SOURCE PROTEIN by SPONSERreg: consists of a Whey protein matrix based on concentrate, isolate as well as hydrolysate. It supports the build-up and maintenance of muscle mass and convinces as a high-quality basic protein.

CHF 27.00

Whey protein concentrate is concentrated solely by means of gentle evaporation, but the product thus contains somewhat more fat and carbohydrates than a pure whey protein isolate. The somewhat lower protein content is compensated with a good price-performance ratio. By combining with Whey Protein Isolate, the percentage of protein has been increased. Isolate thanks to cross-flow filtration the highest quality among protein powders and contained in Whey Triple Source to 30%. Enzymatically cleaved, laquo:predigestedraquo: protein and is therefore absorbed by the body particularly quickly.

- Triple Source Matrix of Whey Isolate, Concentrate and Hydrolysate
- 20g of high quality protein per serving
- Attractive price-performance ratio
- Protein content of 78

### Suggested Use:

Take approximately 30 minutes before or immediately after strength training or as a supplement to your daily protein intake as needed.

### Ingredients:

protein powder 95% (whey protein concentrate, whey protein isolate, whey protein hydrolysate), flavors, emulsifier sunflower lecithin, thickeners (E466, E412), vanilla extract 0.4%, vanilla pods, sweetener sucralose.

Packaging unit: 500g bag

Flavor: Vanilla, Chocolate
