- Weight approx. 2.0kg
- Color: anthracite

This model with a diameter of 50-55cm is particularly suitable for children and adults with a height of 1.30-1.55m. However, if you want to use the VLUV to work at a desk or a table with a normal table height of approx. 72-75cm, you should choose a model with a diameter of 60-65cm. Even if you are shorter than 1.55 m, working at this seat height will be easier. If you have a height-adjustable table or one that grows with you, or if you want to use the VLUV to sit freely, you can use our height guide.
