

## NordicTrack Commercial 2950 treadmill

The Commercial 2950 treadmill from NordicTrack includes new and exciting features to enhance your training experience. With the impressive 22 Prime Interactive Coaching touchscreen, you have the ability to perform studio workouts at home. This allows you to stream high-energy studio workouts with personal trainers in a motivating and encouraging atmosphere at any time. Motivate yourself with powerful cross-training workouts that fit your specific goals and train with the best coaches in the world, all on your screen at home.

**CHF 3'590.00**

### **22-inch colour touchscreen with internet access**

Seemingly unlimited possibilities and interactions: The large full colour touchscreen offers many functions and can be adjusted to different angles. More than 50 pre-saved workouts make your training really dynamic, and in conjunction with iFit technology you can also access functions such as statistics, GoogleMaps, training routes and customized workouts.

### **4.25 HP DC motor**

Train safer, longer and smoother. Vibration-reduced, permanently smooth and consistent power. All NordicTrack drive systems have a built-in, insulated brush system for optimum motor protection and a longer service life.

### **0-3% incline with OneTouch Decline Control**

Training on a treadmill with an incline! Real-world feel and train specific muscle groups. Burn more calories and achieve faster results.

### **Runners Flex shock absorption**

You are in control with the adjustable Runnersflex running deck shock absorption. Turn it on and you reduce the strain on your joints along the full length of the treadmill. Turn it off again and run like you would on the road.

### **0-22 km/h**

Walking, jogging or running - the New Commercial 2950 accompanies every workout with speeds of up

to 22 km/h. Change the speed at the touch of a button so you don't get distracted from your run.

### **iFit Bluetooth Smart access**

With the revolutionary interactive training program iFit Technology\* you get more out of your workout on the Nordic Track training device. A new workout every day (personalized workouts), automatically track your progress, experience real-life runs with Google Maps (virtual routes) or compete with friends, or tailor your workouts to your specific goals (virtual (personal) training). \*Separate iFit subscription required.
