

## NordicTrack treadmill 2450

With the Commercial 2450 treadmill from NordicTrack, you can train on a running surface with inclines of up to 15% - but also on a gradient of up to -3% at speeds of up to 22km/h.

**CHF 2'990.00**

### **14-inch Smart HD touchscreen with internet access**

Speed, incline, distance, heart rate, time and calories - you can see this information on the large 14-inch HD touchscreen integrated into the console of the New Commercial 2450. This color screen allows you to train in maximum comfort. A real plus: compatible with iFit® technology. Makes your training much more dynamic.

### **4.25 hp DC motor**

Train safer, longer and smoother. Equipped with a larger motor compartment for less vibration and built-in fans for better cooling, this 4.25hp DurX Commercial Pro continuous power motor delivers smooth and consistent power. All NordicTrack® drive systems feature a built-in insulated brush system for optimal motor protection and longer life.

### **Up to -3% incline with OneTouch Decline Control**

Training on a treadmill with an incline! Real-world feel and train specific muscle groups. Burn more calories and achieve faster results.

### **Runners Flex shock absorption**

Adjustable RunnersFlex shock absorption. Half a turn, and shock-absorbing isolators on each side of the running surface cushion your stride. Your knees and ankles are protected. Another half turn and the tread transforms into a solid surface and you walk as if you were on the road.

### **0-22 km/h**

Walking, jogging or running - the New Commercial 2950 accompanies every workout with speeds of up to 22 km/h. Change your speed at the touch of a button so you don't get distracted from your run.

**iFit® Bluetooth® Smart access**

With the revolutionary interactive training program iFit® Technology\* you get more out of your workout on the Nordic Track training device. A new workout every day (personalized workouts), automatically track your progress, experience real-life runs with Google Maps (virtual tracks) or compete with friends, or tailor your workouts to your specific goals (virtual (personal) training). \*Separate iFit subscription required.

**iPod®-compatible sound system**

Connect your iPod®\* or MP3 player to the console and work out to your favorite playlist. All with incredible stereo sound from 3-inch speakers. \*iPod® is a trademark of Apple Inc. registered in the USA and other countries. iPod® not included.

**Features:**

- 4.25hp DurX Commercial Pro continuous power motor
- Digital drive system
- 14 (35.5cm) HD touchscreen with iFit technology. This color screen allows you to exercise in maximum comfort. More than 50 video workouts included and compatible with iFit® technology. Makes training much more dynamic. More than 50 pre-saved workouts make training really dynamic, and in combination with iFit® technology you have access to functions such as statistics, GoogleMaps training routes and customized workouts
- Display for time, distance, speed, incline, pace, calories, heart rate
- In-home personal training - in conjunction with an iFit membership, you have access to more than 400 training programs and sports sessions around the world. Thanks to the 10-inch HD screen, a wide range of available programs can be used. (An iFit Premium account is required to access the programs)
- Electronically adjustable incline -3 to +15% - training on a treadmill with an incline of up to -3%! Real world feeling and train specific muscle groups. Burn more calories and achieve faster results.
- Speed electronically adjustable from 0 to 22 km/h in 0.1 km increments
